

OAS 7

Open Art-System

Play like the Big Ones

New expansion pack for owners of ABACUS, VERONA, XENIOS, IKARUS and Expander EX1

Number of sounds playable simultaneously on your upper manual, Lower manual and pedal increased.

Now available are four sounds on the upper manual, three sounds on the lower manual and two sounds on the pedal, which opens up new musical possibilities.

Furthermore, you now also get more split areas.

New Buttons for switching on/off

Simple Operation

The new selectors are simply a new button for on and off.

All new features as per usual can be stored in the total pre-sets

The new Version 7.1 software OAS-R43 is available immediately for download at www.wersi.de

If you are not connected to the Internet, you can receive a CD or DVD with just a nominal Shipping Fee from authorized WERSI Partners.

To obtain the necessary activation contact direct www.musicstore.de (Enter in the search box "WERSI selector Plus one) or an authorized WERSI Merchant.

Tip: With the new R43 on your Instrument all extensions are available to use for 10 times, thus you can test any of them that you have not yet purchased

PRICE

Selector Plus

€290

Prerequisites: This new Software extension applies only to the ABACUS, VERONA, XENIOS, IKARUS and expander EX1.

You need the OAS7 software version 7.1 R43.

Other options, such as for example the Open Art Arranger are not necessary for use of the New Extension, You have to install the version R43 to gain access to this option.

You can test this Extension for 10 times.

To continue using it after this time, you will need to purchase the un-lock code from Wersi.
