New Sound pack

New Organ APOLLO GS200

Special offers for short period

Special offer for ABACUS owner

Hello Wersi Friends

Briefly before Christmas and the turn of the New Year we would like to inform you about pieces of news from the house of WERSI.

The Open Art System

The new sound packages are finished: Immediately owners of an organ or a keyboard of the current Open Art System can download version 7.1 R00.25 from the Internet, or request a copy by telephone or post. Within this version you can activate the four new sound packages.

3 x WERSI Organ sound packs - more than 30 years ago now is it that Wersi introduced the "Helios/galaxy generation" which caused sensation in the organ world. The timeless sounds of these organs, even compared with the modern digital organ still enthral people. With three new sound packages we let the analogue organ of 1975 - 1983 be revived again. Play the sounds of the legendary organs Helios, Galaxis and Comet.

Studio Drum Samples - new drums and percussion for still more live-feeling in your Styles and MIDI files. You receive over 250 new, high-quality Drum sounds, which were, sampled in stereo with a full microphone assembly for the different Drum kits and a Percussions group. Give to your Styles and MIDI files a completely new sound.

The new sound packages are at the price of in each case € 150, - under the free call number 0800 - 11 23 1000 to be ordered. (Germany)

Note! Who orders three sound packages by 21 December 2007, will receive a sound package free!! Beside the four new sound packages already 7 other sound packages for Open Art System are available.

New Organ Apollo GS200

During our autumn tour we successfully presented our new organ APOLLO. The instrument provides a very simple operation and a fantastic sound, and not least by the very attractive price.
